Sensitiv Imago Angel was developed by a group of experts in the field of quantum physics and medicine. At the heart of this device, modern quantum - physical technologies were used as well as the experience of doctors involved in the traditional, holistic and eastern medicine.

The device is able to help both professionals (doctors, therapists, naturopaths) involved in holistic medicine, as well as people who want to get rid of the negative impact of everyday electro magnetic smog. Maximum coverage of the device is up to 30 meters (one floor height)

The device is simple to use and does not require regular maintenance. It is equally effective in a domestic environment and in the workplace, in communities, in the children's facilities, in beauty salons, in wellness and spa areas, etc.

The launch price of Sensitiv Imago® Angel is now by several times lower than that of competitors.
